ANOTHER BREAKTHROUGH FROM ANTENNA FACTOR

PANEL ANTENNA IMPROVES DIRECTIONAL COMMUNICATION

Antenna Factor is pleased to announce the PN Series of panel mount antennas. PN Series antennas are designed for long-distance directional communication among wireless links. The 16dBi gain and 23° horizontal, 23° vertical directivity are superior to typical Yagi antennas, increasing the range and reliability of your wireless link. The sleek and attractive package is rugged and fully weatherized, making the antenna equally suited for indoor or outdoor applications. Each antenna includes complete mounting hardware for standard masts. Priced at less than \$50.00 each in volume quantities, PN Series panel antennas deliver both value and outstanding performance. Visit www.antennafactor.com for more information.
